

ADVANCED PHOTONICS

UNIVERSAL MULTI-VOLTAGE GROUND FORCE BATTERY PACK

MVP-240™

The MVP-240™ is the only battery pack on the market capable of supplying three different voltages to provide reliable and uninterrupted power to a wide variety of electronic and electro-optical systems. It is a universal powering tool for lengthy missions in remote locations where battery charging equipment is not accessible.

The MVP-240™ is particularly useful with helmet-mountable NVGs. Instead of carrying “dead weight” in a form of a standard counterweight at the back of a helmet, the MVP-240™ serves a dual purpose by supplying power to the NVG while being a counterweight at the same time.

The MVP-240™ can be mounted on a firearm’s Picatinny rail to substantially increase operation time of a night vision, thermal, or fusion rifle scope without obstructing access to main controls of a firearm. The excellent weight distribution of this battery pack makes operation of a firearm just as comfortable as if the MVP-240™ was not attached at all.

For the user’s convenience and freedom of choice, the MVP-240™ does not have or use any proprietary or built-in batteries. It accepts all standard AA batteries widely available anywhere in the world: Alkaline, Ni-MH / Rechargeable, Lithium, and so on.

KEY FEATURES:

- > Adds up to 240 Hours to NVG Operation Time
- > Tri-Port Design: Supplies 3VDC, 5VDC, and 12VDC
- > Weighs and Feels as Standard NVG Counterweight
- > Accepts 8 Standard AA Batteries of Any Kind
- > Fits Firearms’ Rails and Helmets
- > Compact Dual-Chamber Enclosure
- > Mil-Spec Compliant
- > Convenient Power Selector
- > Comes with Slide-and-Lock Picatinny Rail
- > In-Built MIL-STD-1913 Mount w/Quick Release Lever
- > Powers Night Vision / Thermal / Fusion and Other Electronic / Electro-Optical Systems

MAIN CHARACTERISTICS:

Designed, Developed, Manufactured by GSCI Advanced Photonics
120 WHITMORE ROAD, UNIT 20, WOODBRIDGE, ONTARIO, L4L6A5, CANADA

ADVANCED PHOTONICS

UNIVERSAL MULTI-VOLTAGE GROUND FORCE BATTERY PACK

MVP-240™

MVP-240™ can be attached to the back of the helmet by using Velcro® or enclosed Picatinny rail

The add-on Slide-and-Lock Picatinny Rail allows attaching the MVP-240™ to virtually any surface

MVP-240™ can be attached to any optical-electronic device which already has service Picatinny rail or by using enclosed Picatinny rail

TECHNICAL SPECIFICATIONS

Compatibility with GSCI Devices	All GSCI-Made Devices with External Power Port
Compatibility with Other Devices	All Electronic / Electro-Optical Devices that Accept 3VDC, 5VDC or 12VDC External Power Input and Electronic Devices that Accept USB Power Input: Cell Phones, Tablets, etc.
Accepted Batteries	8pcs AA of Any Kind: Lithium, Rechargeable (Ni-MH), Alkaline, etc.
Attachment to Helmet	Velcro® or Quick Release Picatinny Mount via Slide-and-Lock Rail
Attachment to Firearm	Quick Release Picatinny Mount
Maximum Operation Time: NVG ¹	240 Hours
Maximum Operation Time: Thermal Device ²	25 Hours
Maximum Operation Time: Fusion Device ³	15 Hours
Body Material	Hard Anodized Aluminum
Dimensions	93x48x115 mm 3.66 x 1.89 x 4.53 in
Weight without Batteries*	330 grams 0.72 lbs
MIL-STD-810 Compliance	Yes
MIL-STD-461 Compliance	Yes
Warranty	7 Years
Export	Available Worldwide: No Export License Required

Maximum operation times are given for GSCI-made devices when the MVP-240™ is equipped with 8pcs brand new lithium batteries:

¹ - Dual-Tube Night Vision Goggles PVS-31C-MOD

² - Thermal Imaging Device TI-GEAR Series

³ - Fusion Device QUADRO-S

Maximum operation times on other systems may vary.

*Actual weight of the MVP-240™ with batteries varies depending on a battery type being

Kit Contents (What's in the Box): MVP-240™ Battery Pack, Picatinny Rail, Power-Out Cable, 4 pcs. of "Quick Swap" Battery Cartridges, Soft Carrying Pouch. *Note: Batteries are not included.*
